**WASTE MANAGEMENT (PACKAGING)  
REGULATIONS 2007.**

These Regulations replace the Waste Management (Packaging) Regulations 2003 as amended by the Waste Management (Packaging) (Amendment) Regulations 2004 and the Waste Management (Packaging) (Amendment) Regulations 2006 and are designed to promote the recovery and recycling of packaging waste. They are intended, in particular, to facilitate the achievement of the targets for the recovery of packaging waste established by Directive 94/62/EC on packaging and packaging waste as amended by European Parliament and Council Directive 2004/12/EC of 11 February 2004 amending Directive 94/62/EC on packaging and packaging waste, so that by 31st December 2008:

- (a) a minimum of 60% of packaging waste by weight is recovered; and
- (b) a minimum of 55% of packaging waste by weight is recycled in total, including material specific recycling targets as follows:
  - (i) 60% by weight for glass,
  - (ii) 60% by weight for paper and board,
  - (iii) 50% by weight for metals,
  - (iv) 22.5% by weight for plastics, and
  - (v) 15% by weight for wood.

The Regulations impose obligations on producers who supply packaging (i.e. packaging material, packaging or packaged products) to the Irish market. An exemption from certain obligations is available to major producers who participate in a packaging waste recovery scheme operated by an approved body.

The Regulations provide that a producer may not supply packaging or packaged products to the Irish market unless the packaging concerned complies with specified essential requirements as to its nature and composition.

The Regulations also provide for limits on the concentration levels of certain heavy metals in packaging.
